

## How to add an H5P Interactive Content activity

Click **Create learning activity** located at the bottom of the section in your course where you want to add an H5P Interactive Content activity.

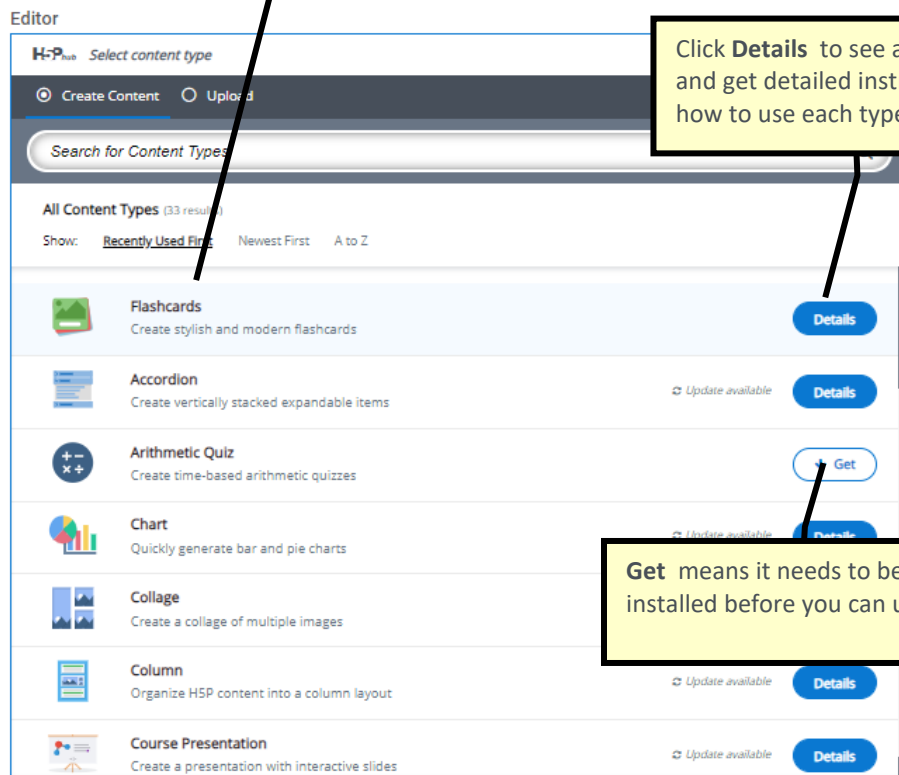

This is a [good website](#) to see an explanation about each type of H5P content and a demo/example of how each one can be used.

Click **H5P Interactive Content**.

DO NOT use this.

Choose the type of H5P content you want to create.

Click **Details** to see an example and get detailed instructions on how to use each type.

**Get** means it needs to be installed before you can use it.

## H5P Adding a new Interactive Content to Instructions to create H5P content

### Description

A B I - I      H5P ↕

Like all Moodle activities/resources, you have a place to type a description that can be displayed on the course page if desired.

☐ Display description on course page

The same example and tutorial instructions are available here to help you use the H5P content type you chose.

### Editor

H5P Hub Flashcards

Tutorial Example

Copy

Paste & Replace

### Flashcards

Title \* Metadata

Used for searching, reports and copyright information

Review terminology from Chapter 1

Title is what appears as the link on your course page.

Task description \*

Use the flashcards to help you review. Insert what you think the answer is before seeing the correct answer.

Task description is what students see above the H5P content.

Cards \*

1. What is used in T... ✕

+ ADD CARD

#### Question

Optional textual question for the card. (The card may use just an image, just a text or both)

What is used in Tic Tok to help someone find certain videos?

#### Answer

Optional answer(solution) for the card.

Hashtags

#### Image

Optional image for the card. (The card may use just a text or both)

+ Add

Alternative text for image

Many of the H5P content types allow you to add images. If you do, include a description of the image for those with vision accessibility issues.

## Display Options

☒ Display action bar and frame

☒ Allow download

☒ Copyright button

No need to change the Display Options.

## Grade

### Common module settings

### Restrict access

### Activity completion

### Tags

Other choices are similar to other types of activities or resources. Make changes as needed depending on whether the activity is part of the course grade.

Save and return to course

Save and display
