Recommended Book resource settings

Book resource

A book resource allows an instructor to "chunk" a lot of information on to separate pages (called "chapters") so students can better absorb it. This is a good way to present additional information not found in the textbook.

Students click on each "chapter" to read the information.

Chapters

1. Page 1
2. Page 2
3. Page 3

> With the proper settings the Activity completion icon will change to a green check mark once students click on each chapter in the book.

> Click the **Edit** icon below the URL resource to open the Edit settings screen.
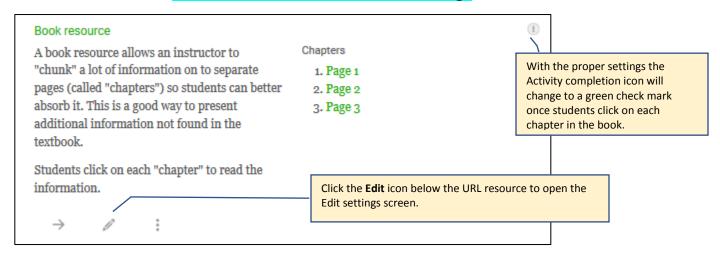

After changing settings always click the "Save and return to course" button on the left side of the Edit settings screen.

Name

Book resource.

Description

A book resource allows an instructor to "chunk" a lot of information on separate pages (called "chapters") so students can better absorb it. This present additional information not found in the textbook.

Students click on each "chapter" to read the information.

> Enable "Display description on course page" so that the instructions at the left of the chapters appears on the course page.

> Change Completion tracking to "Show activity as complete when conditions are met" and enable "Student must view this activity to complete it."
>
> Making these choices will require students to at least click on every chapter (page) in the book. (*Whether they actually read the information or not is their choice.*)
