

Recommended Lesson activity settings

LESSON

 **Lesson Activity**

This activity is similar to the Book resource in the way you "chunk" the information on separate pages. The main advantage to the Lesson activity is that you can also add questions for students to answer to help them know if they understand the material covered. Their answers can even be included as part of their course grade if desired.

One of the criteria on your Self Evaluation form deals with having ways for students to see if they have a "mastery of the content." Besides regular quizzes, using this activity can do that.

If you want to try it out, click the **Lesson activity** link above.

With the proper settings the Activity completion icon will change to a green check mark once students go through every page of the lesson.

Click the **Edit** icon below the URL resource to open the Edit settings screen.

After changing settings always click the "Save and return to course" button on the left side of the Edit settings screen.

Grade

You cannot change the type, as grades already exist for this item.

Type Point

Maximum grade 100

Grade category Not categorized

Grade to pass 0

Practice lesson Yes

Re-takes allowed Yes

Show more...

This is the default. Unless you don't want students to see the book on the course page, leave it at the default.

Note: Generally, all of the settings remain at the default except under the **Activity completion** heading (see next page) and the **Grade** heading.

Grade choices: If including questions for a grade, set Maximum grade, Grade category, and whether students can re-take the lesson. Also, set Practice lesson at "No."

Change Completion tracking to “Show activity as complete when conditions are met.”

Enable “Student must receive a grade.....” if you include questions for a grade in the activity.

Enable “Student must reach the end of lesson page to complete this activity.”
