Best choice is **Open attempts are automatically submitted** so quiz is submitted if student forgets to click the "submit" button after finishing the quiz.

Every question and **Sequential** Navigation method are the best choices to help prevent cheating. Student can see only one question at a time and cannot skip a question or go back to previous questions. Each question is automatically saved when student goes to next question.

The **Review options** chosen here are a method to help prevent sharing quiz questions with other students. The choices are set so that students can see their grade immediately after finishing the quiz but can't see the questions themselves or which questions they got right/wrong until after the due date for the quiz.

The **Overall feedback** section allows you to add general feedback based on a student's grade.

Although it is optional, providing this type of feedback gives students the impression that "you care" and can give them suggestions of ways to improve if they made a poor grade.
