

Recommended URL resource settings

URL resource

Inserting a URL resource into your section allows students to go directly to a specific website. You can also (as in this example) provide instructions for what you want to do once they go to the website.

Click the link above to go to Clarendon College's website. Once you are there, find the Academic calendar located at the Inside CC tab to find out when the semester begins and ends that you are planning to teach the course you

With the proper settings the Activity completion icon will change to a green check mark once students click on the link.

Click the **Edit** icon below the URL resource to open the Edit settings screen.

→ ✎ ⋮

After changing settings always click the “Save and return to course” button on the left side of the Edit settings screen.

Updating URL in Step 3. Look at examples of common types of course content and decide which ones to use in your course.

Name: URL resource

External URL: <https://www.clarendoncollege.edu/> Choose a link...

Description:

Inserting a URL resource into your section allows students to go directly to a specific website. You can also (as in this example) provide instructions for what you want to do once they go to the website.

Click the link above to go to Clarendon College's website. Once you are there, find the Academic calendar located at the Inside CC tab to find out when the semester begins and ends that you are planning to teach the course you are developing.

Display description on course page

Save and return to course Cancel

Enable “Display description on course page” if you want instructions you typed in the Description window to appear under the URL link on the course page.

Visibility: Show on course page

This is the default. Unless you don't want students to see the URL on the course page, leave it at the default.

Change Completion tracking to “Show activity as complete when conditions are met” and enable “Student must view this activity to complete it.”

Making these choices will require students to at least click on the URL link (*Whether they actually read the information at that link is their choice.*)
