

Edit Course Overview

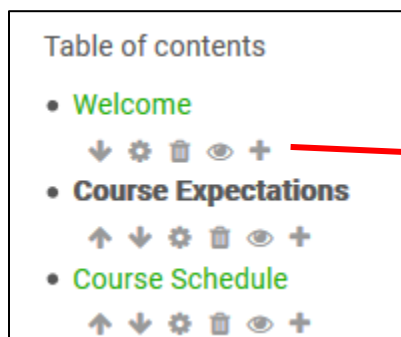

The purpose of the course overview is to simulate the type of information you might share on the first day in a face-to-face course. *(You can set the overview so students can't see your course content sections until they have completed going through the overview.)*

Click the **Class Orientation** section located in the CONTENTS area at the top of your course. Follow the instructions below to edit the Course Overview which is set up in a resource called a "book."

To edit information, click any one of the chapters, then follow steps below.

Click **Turn editing on**

Click appropriate icon below each chapter to:

- Move it up/down in list of chapters
- Edit content of the chapter
- Delete the chapter
- Hide chapter from student view
- Add a new chapter below it
