

Embed a video from YouTube in a Moodle Page or Online Lesson resource

(You can embed a video in any Moodle window that has the formatting toolbar available.)

Step 1:
Find the video on YouTube.

Step 2:
Click **Share**

Step 3:
Click **Embed**

Step 4:
Copy the html embed code.

```
<iframe width="560" height="315" src="https://www.youtube.com/embed/k6pg4nZS6fA" frameborder="0" allowfullscreen"></iframe>
```

Note: If all 3 rows of formatting tool buttons cannot be seen, click the **Toolbar Toggle** button.

- starting a new presentation
- parts of a PowerPoint screen
- Quick Access Toolbar
- different views to see slides
- "backstage" view

PowerPoint 2016 is used in this video. If you are using a different version, the concepts and features are the same.

Step 5:
In Moodle open the window where you want the video to be embedded.

Step 6:
Click the HTML editor icon.

```
<p>This video will give you some other important information you need before actually starting to use PowerPoint as well as reinforce a few basic concepts learned in the narrated slideshows. You will be introduced to the common features in Microsoft PowerPoint. The video is about 5 minutes long. Pause the video as needed to take notes on your lesson guide.</p><p>In this first video you will learn about:</p><ul><li>starting a new presentation</li><li>parts of a PowerPoint screen</li><li>Quick Access Toolbar</li><li>different views to see slides</li><li>"backstage" view</li></ul><p>PowerPoint 2016 is used in this video. If you are using a different version, the concepts and features are the same.</p></pre>
```

Step 7:
In the HTML editor window, paste the embed code you copied from YouTube into the place where you want it to appear.

Step 8:
Click **Update**.
