

Restrict an entire section so only certain groups can see it

Example: Only want online students to see it, not face-to-face hybrid students.

Edit section

Restrict access

Expand all

Click **Edit section** in the section you want only certain groups to see.

Click the Restrict access **drop-down** arrow.

Click **Add restriction** from the Restrict access drop-down menu.

Click **Group**

Click **Choose** to select group you want to have access.

Add another restriction if you want another group to have access.

Once set, only groups listed will have access to the section. All others will only be able to see the section name and section introduction – none of the section content.
