

See group members in Participants list

Instructors:

In the **Participants** list on the Course Dashboard, you can choose to see only those from a certain group. That makes it easy to select students from a group and send a message to all of them.

Participants

Students and non-editing teachers (high school facilitators):

They can only see members of their group in the **Participants** list.

They can still see all class members in the **Class List** block on their Course Dashboard and send messages to any of them.
