

# Moodlerooms Grader

Although the Gradebook shows your individual grades, consider using Moodlerooms Grader to see more than just your grade.

For instance, many instructors use rubrics to grade assignments. To see the rubrics (before or after submitting your assignments), use Moodlerooms Grader

Also, many instructors leave special comments to you in Moodlerooms Grader. And you can leave comments to the instructor.

The image shows a screenshot of the Moodlerooms Grader interface with several red boxes and arrows pointing to specific features. The interface includes a 'Course Dashboard' header, a user profile for 'Donald Duck', and navigation buttons for 'Moodlerooms Grader', 'Gradebook', and '3 Participants'. A 'Grading' panel is open for 'Chapter 1 Assignment', showing 'Current grade in grade book: 7 / 7' and 'Attempt grade: 7'. A 'View grading marking guide' button is highlighted, along with an 'Activity comments' section containing a comment from Pamela Denney. A text area at the bottom of the grading panel is also highlighted.
